As the Audio Visual Equipment Rental market does not allow for fixed pricing, **Bedrockcreative** prefer to produce an equipment list to indicate available product, we ask you to then contact us directly for a competitive quotation.

The A/V market is constantly changing with new product constantly being added; therefore this list is only as a guide to what is available. If you cannot find an item listed then please contact us.

The Equipment List also has hyperlinks to the technical pages of many products, should you wish to learn more about a certain product just click on the [:spec](#) motif.
